WNTC Expands News Coverage

As the saying goes, "Time and tide wait for no man" . . . and neither does the news! And it also stands to fact, news is fastest by radio. W-N-T-C, the campus radio station, is currently undergoing plans for an all out effort to meet the demand for better world wide news coverage for the students of Potsdam State and Clarkson College.

R. J. Potter, news director of W-N-T-C radio, has announced a full new radio program, "Radio World Wide" from 6:00 p.m. until 6:30 p.m., Monday thru Friday starting this coming Monday, February 20. The new program also includes "Speaking of Sports" with Ed Bailey, W-N-T-C radio personality, with complete weather and a commentary on the world in depth as compiled by the United Press International and the W-N-T-C Radio news department.

Throughout the broadcasting day, the W-N-T-C Radio news center follows current events of the world every hour on the hour with five-minute news summaries and headline-news in brief at the bottom of the hour to keep you informed on up-to-the-minute international, national, local, and campus scenes. So may we suggest "For news ahead of the headlines, tune in and be in the know"!
